# Certificate

The Institute of Electrophotonic Berlin certifies, that the following product of the company

**i9 d.o.o.**
Limbuška cesta 78B, 2000 Maribor
Slovenia

**Product**
**i9 Bottle**

has an affirmatively energetic influence on tap and mineral water. The water was inside the open bottle with air contact during all tests.

The test bottle influenced drinking water has an affirmatively positively regulating and harmonizing influence on human body state: it reduces the stress level and increases energy.

All test were conducted double blind with placebo control.

The tests of i9 Bottle influence on water state were conducted with tap and mineral water . It were measured the photon emissions parameters of water drops in EPC(GDV)–Camera.
The test of influence of i9 Bottles energized mineral water on human body state was carried out with EPC(GDV) - Camera. It were measured EPC(GDV) parameters for Energy profile and Stress level.
The results are documented in the test protocols 19/01,16/09 and 13/02.

Berlin, 20.03.2019

INSTITUT FÜR ELEKTROPHOTONIK * D - 10365 Berlin Siegfriedstr. 204 Wadim Säidow * DEUTSCHLAND *

Wadim Säidow
Head of the Institute of Electrophotonic Berlin

Dr. Erika Säidow
Head of medical division of the Institute of Electrophotonic

The validity period of the Certificate is 2 (two) years and can be elongate for further 2 (two) years after the control test of a product from running production.
